

Beechdale Nursery School

Staff ICT Acceptable Use Policy September 2021

As a professional organisation with responsibility for children's safeguarding it is important that all staff take all possible and necessary measures to protect data and information systems from infection, unauthorised access, damage, loss, abuse and theft. All members of staff have a responsibility to use the school's computer system in a professional, lawful, and ethical manner. To ensure that members of staff are fully aware of their professional responsibilities when using Information Communication Technology and the school systems, they are asked to read and sign this Acceptable Use Policy.

This is not an exhaustive list and all members of staff are reminded that ICT use should be consistent with the school ethos, other appropriate policies and the Law.

- I understand that Information Systems and ICT include networks, data and data storage, online and offline communication technologies and access devices. Examples include mobile phones, digital cameras, email and social media sites.
- Staff Mobile phones may only be used on occasions where children are not present, and should be stored securely when working with pupils. In the unlikely event of needing to contact a parent directly the main school phone should be used. If staff are out of school with children e.g. a school trip, a school mobile phone will be issued to a member of staff to be used if parents need to be contacted.
- Personal equipment will never be used to take pictures of children.
- School owned information systems must be used appropriately. I understand that the
 Computer Misuse Act 1990 makes the following criminal offences: to gain unauthorised
 access to computer material; to gain unauthorised access to computer material with intent to
 commit or facilitate commission of further offences or to modify computer material without
 authorisation.
- I understand that any hardware and software provided by my workplace for staff use can only
 be used by members of staff and only for educational use. To prevent unauthorised access to
 systems or personal data, I will not leave any information system unattended without first
 logging out or locking my login as appropriate.
- I will respect system security and I will not disclose any password or security information. I will use a 'strong' password (A strong password has numbers, letters and symbols, with 8 or more characters and is only used on one system).
- I will not attempt to install any purchased or downloaded software, including browser toolbars, or hardware without permission from the system manager.

- I will ensure that any personal data of pupils, staff or parents/carers is kept in accordance with the Data Protection Act 1988. This means that all personal data will be obtained and processed fairly and lawfully, only kept for specific purposes, held no longer than necessary and will be kept private and secure with appropriate security measures in place, whether used in the workplace, hosted online (only within countries or sites with suitable data protection controls) or accessed remotely. Any data which is being removed from the school site (such as via email or on memory sticks or CDs) will be encrypted by a method approved by the school. Secure means of transporting data are either an encrypted memory stick or use of the DLG. Any images or videos of pupils will only be transported by secure media and will always take into account parental consent.
- If working from home I will ensure that all documentation and photographs are transported on an encrypted memory device. I will not keep professional documents which contain school-related sensitive or personal information (including images, files, videos etc.) on any personal devices (such as laptops, digital cameras, mobile phones).
- Portable media will not be used without specific permission followed by an anti-virus/malware scan
- Photographs must be removed from camera memory cards at the end of each day and cameras permanently stored in school. Photographs can be temporarily stored only on an encrypted memory device. Once used for documentation, they will be permanently stored on the school central system (NAS box)
- I will use the School NAS drive to upload and store any work documents and files in a password protected environment. I will protect the devices in my care from unapproved access or theft. Personal devices may NEVER be used to store professional documents.
- I will not store any personal information on the school computer system that is unrelated to school activities, such as personal photographs, files or financial information.
- I will respect copyright and intellectual property rights.
- I have read and understood the school e-Safety policy which covers the requirements for safe ICT use, including using appropriate devices, safe use of social media websites and the supervision of pupils within school and other working spaces.
- I will report all incidents of concern regarding children's online safety to the Designated Child Protection Coordinator (Julia Graham) as soon as possible. I will report any accidental access, receipt of inappropriate materials, filtering breaches or unsuitable websites to Julia Graham for filtering as soon as possible.
- I will not attempt to bypass any filtering and/or security systems put in place by the school. If I suspect a computer or system has been damaged or affected by a virus or other malware or if I have lost any school related documents or files, then I will report this to the ICT Support Provider/Team as soon as possible.
- My electronic communications with pupils, parents/carers and other professionals will only take place via work approved communication channels e.g. via a school provided email address or telephone number. Any pre-existing relationships which may compromise this will be discussed with the Senior Leadership team e.g. friends on social websites becoming parents of children in school. I am aware that any comments I leave on social media sites have the potential to be shared with friends of other users and not just my own.
- My use of ICT and information systems will always be compatible with my professional role, whether using school or personal systems. This includes the use of email, text, social media, social networking, gaming, web publications and any other devices or websites. My use of ICT will not interfere with my work duties and will be in accordance with the school AUP and the Law.
- I will not create, transmit, display, publish or forward any material that is likely to harass, cause offence, inconvenience or needless anxiety to any other person, or anything which

could bring my professional role, the school, or the County Council, into disrepute. This would include any comment made, even in the belief that it is private on a social media site.

- I will promote e-Safety with the pupils in my care and will help them to develop a responsible attitude to safety online, system use and to the content they access or create. I will monitor and report any incidents of cyber bullying to the Head Teacher
- If I have any queries or questions regarding safe and professional practise online either in school or off site, then I will raise them with the Head Teacher.
- I understand that my use of the information systems, Internet and email may be monitored and recorded to ensure policy compliance.

The School may exercise its right to monitor the use of information systems, including Internet access and the interception of e-mails in order to monitor compliance with this Acceptable Use Policy and the School's Data Security Policy. Where it believes unauthorised and/or inappropriate use of the service's information system or unacceptable or inappropriate behaviour may be taking place, the School will invoke its disciplinary procedure. If the School suspects that the system may be being used for criminal purposes or for storing unlawful text, imagery or sound, the matter will be brought to the attention of the relevant law enforcement organisation.

| I have read and understood and agree to comply with the Staff ICT Acceptable Use Policy. | |
